

Personalized support
to help you get started
and stay on therapy with
DUVYZAT™ (givinostat).

Dedicated support to help make it easier to access therapy

There's a lot to consider when your healthcare provider prescribes a new medicine. The good news is that ITF ARC is here to help. ITF ARC offers support that helps make insurance coverage navigation easier, addresses financial concerns, and encourages adherence to therapy.

Here are some of the ways we can help:

Insurance navigation

- Insurance coverage benefits verification
- Prior authorization and appeal support as needed
- Medication delivery to home or preferred address

Education and adherence

- Personalized pharmacist support
- Disease and therapy educational materials
- Coordination with families and healthcare providers, including refill reminders
- Translation services available as needed

Everyone deserves access to the treatment they need, regardless of their financial situation or insurance status. That's why ITF ARC provides a variety of support options to address individual needs and ensure continuous access to therapy.

Our access solutions include:

Copay Program

If you need help with out-of-pocket costs, copay assistance is available for eligible, commercially insured patients whose health plan covers DUVYZAT™ (givinostat) for as little as \$0 per month.

Patient Assistance Program

This program provides medication free of charge to eligible patients who do not have insurance, or whose insurance does not cover their prescription.

Temporary Supply Programs

Our temporary supply programs help ensure patients have access to treatment from the start while waiting for insurance approvals or other processes to be completed. These programs make sure patients continue to get the medicine they need.

Each patient's eligibility for access programs is evaluated on an individual case-by-case basis. To be eligible, use of DUVYZAT must be consistent with the FDA-approved indication. All programs may be modified or discontinued at any time for any reason, including eligibility criteria, state and federal laws, and program availability.

Restrictions apply. See full restrictions for ITF Therapeutics' Copay Program, Patient Assistance Program, and temporary supply programs at duvyzat.com/ITFARC.

To experience the full range of services and support from ITF ARC, ask your healthcare provider to help you enroll in the program today.

If you have any questions about any of the programs mentioned above, please call ITF ARC at 1-855-4 ITF ARC (1-855-448-3272) to speak with a case manager.

ITF ARC is committed to providing personalized support to help make starting and staying on therapy as prescribed as simple as possible.
